Plastic Trends Inc. was founded in 1968. Over the course of the next three decades, Plastic Trends achieved continuous growth through its commitment to the customers and to manufacturing quality products. Today, Plastic Trends is a fully operational 265,000 square foot injection molding facility located in Shelby Township, MI. The state-of-the-art manufacturing facility houses injection molding machines that range in size from 150 to 2000 tons, and is supported by 2 PVC fitting fabrication plants and 16 stocking locations.

At Plastic Trends, we know fittings. We mold and fabricate PVC pipe fittings in all styles and sizes for the North American Market. From the design of the mold to the production of the fittings, Plastic Trends is involved in every part of the manufacturing process. With over 35 years in the industry, we guarantee the best quality anywhere. Plastic Trends' fittings service the following pipe systems:

- Drainage
- Sewage
- DWV
- Potable Water
- Electrical
