Slipfix Repair Couplings

- Slip-Fix, the in-line PVC repair coupling, makes repairing a broken line, installing a valve or adding a lateral or riser fast and simple.
- There is no need to dig back long sections of pipe to repair a broken line, and a Slip-Fix is easy to install next to fittings where space is limited.
- Slip-Fix requires no bracing, there are no nuts to tighten, and it ensures a permanent seal.
- A 1500 psi-rated O-ring and the patented O-ring relief and pressure ratings to Schedule 40 tolerances assure a tight seal with no leaks.

Part #	Description	Price

Formed from a small, one-machine shop in 1969, Mr. Wayne Spears has built the reputation of Spears® Manufacturing Company on the cornerstones of providing high quality products, customer satisfaction, and superior service. Providing customers with the best of what they need, when they need it has always been central to the Spears® philosophy. Today, Spears® maintains

over one million square feet of manufacturing facilities in four states, nine distribution centers across the USA, and worldwide product distribution to meet the needs of an ever-growing industry. Spears® broad product line offers a complete

selection of 1/8" through 12" injection molded fittings and fabricated fittings through 48", many specialty products, and a full complement of manual and mechanically actuated thermoplastic valves in a variety of types, sizes, and configurations. Plus, Spears® offers the very best in custom configuration services for special applications including custom fitting and manifold fabrication, custom valve actuation, and special elastomer or material options.

Backed by over 30 years of both product and process development experience, Spears® has become one of the leading manufacturers of thermoplastic valves, fittings, and piping system components. Innovative product designs and improvements, new fitting technologies, and a fully integrated manufacturing system are all a part of Spears® ongoing commitment to Quality, Satisfaction, and Service.

Since 1887
