Imagination.
Passion.
Innovative Spirit.

That's Viega – a family business that has changed the direction of the plumbing industry for over a century. Viega was established in 1899 with our first product line: brass beer taps. Home plumbing products followed in 1901 and the complete Viega system concept in the 1980s. In 1995, Viega revolutionized the plumbing industry with innovative press technology. Today, Viega worldwide offers a choice of over 12,000 products. All of our systems can be combined to make the work of the contractor easier every day. With our own research and development department, and a commitment to listen as well as advise, Viega continues to create new solutions for our customers around the world.

Tube Cutter-Plastic

- Cuts up to 1In Tubing

| Part # | Description | Price |
|----------|---|-------|
| 44902550 | E6081128 Uponor up to 1in PEX Tube Cutter | 34.38 |

ProPEX Air Expander Tool Kit

- ProPEX Air (pneumatic) Expander Tool expands Wirsbo PEX tubing using the ProPEX connection method.
- Kit includes 1/2" Head, lubricant, carry case and 4oz tube of pneumatic oil.

| Part # | Description | Price |
|----------|--------------------------------|---------|
| 44902600 | Q6301000 Air Expander Tool Kit | 1149.90 |

ProPEX Hand (Manual) Expander Tool Kit

- ProPEX Hand Expander Tool features tool-hardened heads, providing more consistent and even expansion for the tubing.
- Kit includes 1/2", 3/4" and 1" Heads tool lubricant, carry case

| Part # | Description | Price |
|----------|---------------------------------|--------|
| 44902650 | Q6295075 Hand Expander Tool Kit | 609.90 |

The Beginning

It all started with the pour of a nice brew. Founded by Franz Viegener in 1899, Viega's first product offering was a brass beer tap. By 1901, the company evolved and began manufacturing home plumbing products. But our story, the North American story, really began in 1999, when the family-owned Viega decided to offer a selection of Viega products in the United States.

New Products

With more than 12,000 products offered worldwide, all of Viega's systems can be combined to make the work of the contractor faster, easier, environmentally friendly and safe. Known for innovative offerings such as the ProPress copper system, ProRadiant heating, ViegaPEX tubing, and the MANABLOC water distribution system, Viega was able to combine European and American technologies to create a new standard of quality.

New Opportunities

As the number of Viega products continues to grow, Viega keeps expanding its extensively trained and highly specialized sales force. With approximately 550 employees in North America, Viega remains committed to the vision and values of the man who started it all so many years ago. Operating on strict principles of professional integrity and conduct, Viega's sales team responds quickly with the most up-to-date information by offering personalized customer support for wholesalers, contractors, engineers, architects and consultants – from basic product information to installation and after sales support. Viega CEO Dan Schmierer attests, "Customer satisfaction is the focus of everything we do at Viega."

Coast to Coast Commitment

Headquartered in Wichita, Kan., Viega delivers not only the highest quality systems available, and the most knowledgeable sales and support staff from America's heartland, but the best education in the industry. By opening its first North American Educational Facility in Nashua, N.H., in 2006, Viega offers a comprehensive range of training courses from half-day workshops to extensive three-day programs. Dedicated to offering the best education in the industry, Viega is one of the first manufacturers to offer continuing education credits through its training program.

The Future

Viega's investment in North America continues to grow, with the largest investment scheduled for late 2008. This date marks the opening of Viega's new 439,000 square foot manufacturing and distribution center. The new facility in McPherson, Kan., will house extrusion, injection molding, distribution and office space. The new facility, nearly three times as large as Viega's current manufacturing facility, demonstrates Viega's growing commitment to improving customer service with faster delivery times and reduced shipping costs.

From Viega's first product introduction in 1899, Viega's family heritage of innovation, quality and service still flows through all of Viega's products and the people who design, make, sell and support them. So sit back, and pour a nice brew. You can rest assured, when dealing with Viega you are getting not only the most premier plumbing and heating systems on the market but the best customer and sales support in the industry.

The John Guest Group of Companies has a long established reputation as a manufacturer and supplier of high quality push-in fittings to a wide variety of markets all across the globe. This reputation is built on producing consistently high quality products and maintaining an ongoing commitment to both value engineering and product development.

The John Guest organization is dedicated to service, quality and engineered performance in the manufacture and distribution of push-in fittings, pipe and plastic plumbing systems. Through a strong commitment to growth and innovation and a policy of continuous reinvestment, the company is constantly upgrading its products and manufacturing capabilities. With more than 10% of the John Guest workforce dedicated to Research and Development, the company places great emphasis on maintaining its position as a world-leader in its chosen field.

Moreover, John Guest is self-sufficient from design and tooling, through to production, sales and service. With our highly skilled engineers designing and building much of the company's automation, assembly and testing equipment, John Guest maintains total quality control at every stage of production.

Braided Vinyl Tubing

- Polyester Braid Reinforced Polyvinyl Chloride tubing is excellent for hydraulic, pneumatic and vacuum lines.
- Non-Toxic NSF listed material
- Pressure range is 70 to 250 PSI
- Max Operating Temperature is +175°F.

| Part # | Description | Price |

Washing Machine & Dishwasher Hose

- PVC with Polyester Braiding is designed for use as a washing machine or dishwasher inlet or drain hose.
- Pressure range is 75 to 200 PSI
- Max Operating Temperature is +185°F.

WATTS®

| Part # | Description | Price |
|----------|-----------------------------------|-------|
| 02200900 | 1 OD x 5/8 ID Dishwasher Hose | 3.50 |
| 02200910 | 1-1/4 OD x 7/8 ID Dishwasher Hose | 4.70 |

Economy Flat Discharge Hose

- Blended PVC Compounds make a hose ideally suited for construction, agriculture, mining, drip irrigation or drainage applications.
- The tubing lays flat for less storage space.
- Working Pressure is 80 PSI.
- Max Operating Temperature is +170°F.

WATTS®

| Part # | Description | Price |
|----------|--------------------------------------|-------|
| 02201300 | 1-1/2 ID Economy Flat Discharge Hose | 1.98 |
| 02201310 | 2 ID Economy Flat Discharge Hose | 2.90 |

Garden Hose

- Tinted Polyvinyl Chloride Compounds Reinforced with Braided Tire Cord and Nylon Yarn combine for strength.
- Abrasion and UV resistant cover for durability.
- Working Pressure @ 70°F is 125 PSI.
- Max Operating Temperature is +150°F.

WATTS®

| Part # | Description | Price |
|----------|-----------------------------|-------|
| 02201110 | 7/8 OD x 5/8 ID Garden Hose | 3.30 |

Sump Pump Discharge Hose

- Corrugated Ultra Low Density Polyethylene tubing is ideal for marine applications, sump-pump, and all discharge operations where no vacuum is present.
- Cuffs molded every 3' for easy use without additional fittings.
- Max Operating Temperature is +150°F.

WATTS®
