INTELLIGENT CONTROL LOGIC
• The internal microprocessor provides enhanced operating parameters and tighter differentials for precise sensing and faster heating response to optimize performance.
• Uses a thermopile to generate the power needed to operate the electronic gas control without requiring an external power source.
• The electronic gas control incorporates an LED status indicator that monitors system operation and service diagnostics.
• “Not available on 60,000 BTU input models (GS6 50 XCT and GS6 55 XCT).

GREEN CHOICE® GAS BURNER
• Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-Nox emission requirements of less than 40 ng/J.

DYNACLEAN™ DIFFUSER DIP TUBE
• Reduces lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

COREGARD™ ANODE ROD
• Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

PUSH-BUTTON PIEZO IGNITOR
• Makes lighting the pilot fast and easy with one-hand push-button spark ignition.

HEAT TRAP NIPPLES
• Factory-installed for faster installation.

BLUE DIAMOND® GLASS COATING
• Provides superior corrosion resistance compared to industry standard glass lining.

ENHANCED FLOW BRASS DRAIN VALVE
• Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type, drain valve.
• Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
• Designed for easy operation, this valve includes an integral screwdriver slot that features a 1/4 turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

CODE COMPLIANCE
• Meets UBC, CEC and HUD National Codes.
• Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IENSA 90.1

HIGH ENERGY FACTORS
• Eco-Friendly non-CFC foam insulation, external heat traps and specially designed combustion chamber combine to produce a high Energy Factor for maximum savings on operating costs.

CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE
MAXIMUM HYDROSTATIC WORKING PRESSURE 150 PSI
DESIGN-CERTIFIED BY CSA INTERNATIONAL
• Certified at 300 PSI test pressure and 150 PSI working pressure. Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type water heaters.

6-YEAR LIMITED TANK AND PARTS WARRANTY
• For complete information, consult written warranty or State Water Heaters.

Recovery capacity based on actual performance tests. Water connection - 3/4” on all models.

*Optional side-mounted recirculating taps, add “L” to the suffix in the model number (GS6 50 RBT).
†Models ship with supplied insulation blanket.
For 10-year tank and 6-year parts warranty, change “6” to “X” in the model number (example: GSX 30 OCT). LP models not available on GS6 40 OCT and GS6 40 RCT).
All models approved for installation from sea level to 10,100 ft. elevation.
Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.

### FLAMMABLE VAPOR IGNITION RESISTANT (FVIR) WATER HEATERS

State FVIR design meets the American National Standards Institute standards (ANSI Z21.10.1 CSA 4.1) that deal with the accidental or unintended ignition of flammable vapors, such as those emitted by gasoline.

It features a sealed combustion chamber with air intake filter and a flame arrester built into the water heater base. In addition, a thermal cutoff (TCO) device, is designed to shut off gas flow to the burner and pilot if poor combustion is detected.

Maximum Hydrostatic Working Pressure: 150 PSI
GAS CONTROL CONVERTIBLE FOR NATURAL AND PROPANE GAS
• For flexibility to meet the varying needs of manufactured housing installations.

SIDE-MOUNTED 3/4˝ COLD WATER INLET
• For ease of installation when cold water supply originates below the structure.
• Top mounted 3/4˝ hot water outlet.

GREEN CHOICE® GAS BURNER
• Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

COREGARD™ ANODE ROD
• Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

BLUE DIAMOND® GLASS COATING
• Provides superior corrosion resistance compared to industry standard glass lining.

ENHANCED FLOW BRASS DRAIN VALVE
• Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type drain valve.
• Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
• Designed for easy operation, this valve includes an integral screwdriver slot that features a 1/4 turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

CODE COMPLIANCE
• Meets UBC, CEC and HUD National Codes/
• Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IESNA 90.1.
• Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

COMPLIES WITH HUD STANDARDS FOR MANUFACTURED HOUSING INSTALLATION

CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE
MAXIMUM HYDROSTATIC WORKING PRESSURE 150 PSI

6-YEAR LIMITED TANK AND PARTS WARRANTY
• For complete information, consult written warranty or State Water Heaters.

FLAMMABLE VAPOR IGNITION RESISTANT COMPLIANT DESIGN
All models ship from the factory for use with natural gas, a complete propane (LP) burner is supplied for converting to propane gas.

All models are certified from sea level to 10,100 ft. elevation.

Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.

### ROOF JACK INSTALLATION

This water heater must have a properly-installed draft hood and be connected to a listed roof jack that terminates to the outdoors. The roof jack vent pipe must be secured to the draft hood with sheet metal screws. (Roof jack not furnished.)

The following roof jack models are certified for use with this water heater and are available from your water heater supplier:

**Field Controls No. 987 for roof pitch of 5-12 or less:**

<table>
<thead>
<tr>
<th>Kit Number</th>

INTELLIGENT CONTROL LOGIC
- The internal microprocessor provides enhanced operating parameters and tighter differentials for precise sensing and faster heating response to optimize performance.
- Uses a thermopile to generate the power needed to operate the electronic gas control without requiring an external power source.
- The electronic gas control incorporates an LED status indicator that monitors system operation & service diagnostics.

HIGH ENERGY FACTORS
- Eco-friendly non-CFC foam insulation, heat traps and specially designed combustion chamber combine to produce a high Energy Factor for maximum savings on operating costs.

GREEN CHOICE® GAS BURNER
- Enhanced Ultra-low NOx burner complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NOx emissions of less than 10 ng/J.

SELF-CLEANING DIP TUBE
- Helps reduce lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

COREGARD™ ANODE ROD
- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

PUSH-BUTTON PIEZO IGNITOR
- Makes lighting the pilot fast and easy with one-hand push-button spark ignition.

HEAT TRAP NIPPLES
- Factory-installed for faster installation.

BLUE DIAMOND® GLASS COATING
- Provides superior corrosion resistance compared to industry standard glass lining.

ENHANCED FLOW BRASS DRAIN VALVE
- Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type, drain valve.
- Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
- Designed for easy operation, this valve includes an integral screwdriver slot that features a ¼ turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

CODE COMPLIANCE
- Meets UBC, CEC and HUD National Codes.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy Conservation Act (EPCA), as amended.

CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE
- Top-mounted T&P relief valve available as option.

6-YEAR LIMITED TANK AND PARTS WARRANTY
- For complete information, consult written warranty or State Water Heaters.

Recovery capacity based on actual performance tests.
All models may be ordered from the factory with top T&P.
*Standard with side recirculating taps (model GS6 50 RCUT).
†Models ship with supplied insulation blanket.
All models approved for installation from sea level to 7,700 ft. elevation (except GS6 50 RCUT, approved to 5,400 ft.).
Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.

Maximum Hydrostatic Working Pressure: 150 PSI
HIGHEST RECOVERIES
- Capacity/input combinations up to 98 gallons/75,100 BTU’s produce recoveries up to 81 gallons per hour.

FULLY AUTOMATIC CONTROLS WITH SAFETY SHUTOFF
- Accurate, dependable control system requires no electric connections.
- Fixed automatic gas shutoff device for added safety.

GREEN CHOICE® GAS BURNER
- Patented eco-friendly burner design reduces NOx emissions up to 33% and complies with Low-NOx emission requirements of 14 ng/J or 20 ppm.

SELF-CLEANING DIP TUBE
- Reduces lime and sediment buildup, maximizes hot water output. Made from long-lasting Pex cross-linked polymer

COREGARD™ ANODE ROD
- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

PUSH-BUTTON PIEZO IGNITOR
- Makes lighting the pilot fast and easy with one-hand push-button spark ignition (Natural gas only).

NIPPLES
- Factory-Installed for faster installation

BLUE DIAMOND® GLASS COATING
- Provides superior corrosion resistance compared to industry-standard glass lining.

ENHANCED FLOW BRASS DRAIN VALVE
- Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type, drain valve.
- Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
- Designed for easy operation, this valve includes an integral screwdriver slot that features a 1/4 turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

CODE COMPLIANCE
- Meets UBC, CEC and ICC National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IESNA 90.1

CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE

MAXIMUM HYDROSTATIC WORKING PRESSURE 150 PSI

DESIGN-LISTED BY UNDERWRITERS LABORATORIES
- Certified at 300 PSI test pressure and 150 PSI working pressure.
- Listed according to ANSI Z21. 10.3 CSA 4.3 standards governing storage tank-type water heaters.

6-YEAR LIMITED TANK AND PARTS WARRANTY
- For complete information, consult written warranty or State Water Heaters.

Recovery capacity are based on actual performance tests.

Water connections are- 1” on GS6 75 XRRS and 1-1/4” on GS6 100 XRRT.

For 10-year tank and 6-year parts limited warranty, change “6” to “X” in the model number (example: GSX 75 XRRT).

For optional side-mounted recirculating taps, add “L” to suffix (example: GS6 75 XRRS L).

Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.

GAS INLET
SELECT® DIRECT VENT

DIRECT VENT DESIGN
- One-pipe, dual-channel closed system draws all make-up air from outside the home, eliminating problems caused by insufficient indoor ventilation and is FVIR compliant. Horizontal air intake and venting on all models up to 80 inches from outside wall with no electrical power needed.

INTELLIGENT CONTROL LOGIC
- The internal microprocessor provides enhanced operating parameters and tighter differentials for precise sensing and faster heating response to optimize performance.
- Uses a thermopile to generate the power needed to operate the electronic gas control without requiring an external power source.
- The electronic gas control incorporates an LED status indicator that monitors system operation and service diagnostics.

GREEN CHOICE® GAS BURNER
- Patented eco-friendly burner design reduces NOx emissions up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

SELF-CLEANING DIP TUBE
- Helps reduce lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

COREGARD™ ANODE ROD
- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

PUSH BUTTON PIEZO IGNITOR
- Makes lighting pilot fast and easy with one-hand push-button spark ignition.

HEAT TRAP NIPPLES
- Factory-installed for faster installation.

ENHANCED FLOW BRASS DRAIN VALVE
- Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type, drain valve.
- Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
- Designed for easy operation, this valve includes an integral screwdriver slot that features a ¼ turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE

CODE COMPLIANCE
- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IESNA 90.1

6-YEAR LIMITED TANK AND PARTS WARRANTY
- For complete information, consult written warranty or State Water Heaters.

FLAMMABLE VAPOR IGNITION RESISTANT COMPLIANT DESIGN

SOLID. STATE.
Recovery capacities based on actual performance tests.
*Dual-channel system has 3" vent pipe inside 6" air intake pipe, for the 40 and 50-gallon models.
Water connection is 3/4" male on all models.
40 and 50 gallon models are 8" on center.

**IMPORTANT! VENT INSTALLATION AND TERMINATION REQUIREMENTS**
- Maximum horizontal vent distance is 80” to the outside of exterior wall.
- Maximum vertical vent distance is 72" above heater before 90 degree turn through exterior wall.
- Minimum horizontal vent distance is 17” to outside of exterior wall.
- Vent pipes may be trimmed (cut) for short vent installations.
- The recommended installation height for the vent termination is dimension “A” in the above table. The minimum allowable height (center line of termination opening) is 60 ¾“ for the 40-gallon model, 69 ½“ for the 50-gallon 40,000 BTU input model, 70 ½“ for the 50-gallon model, 47,000 BTU input model.

**VENT RESTRICTOR PLATE:**
- The vent restrictor plate is required for short horizontal vent runs less than 30” horizontal and vent runs when the termination’s height is greater than 48” above the heater. The only time the restrictor is not required is for horizontal runs greater than 30” in length with the termination less (lower) than 48” above the heater. See installation instructions for complete details.

**OFFSET VENT ARRANGEMENT:**
- The vent run may have one (1) 90 degree horizontal turn prior to terminating through the exterior wall. See installation instructions for complete details.
- Vent termination clearance hole through the exterior wall should be approximately 7” diameter.
- Snow accumulation and drifting should be considered when locating the termination.
- An optional wire grill vent cap protector is available through the parts department. (Part number 9006627005).
- See the installation manual for complete installation and venting requirements.

All models are available in propane (LP) gas (series 301).
All models are certified from sea level to 7,700 ft. elevation.
Side connections optional. Add “L” to the model number (example: GS6 40 YBDS L).
Side T&P standard on all models.
Dimensions and specifications subject to change in accordance with our policy of continuous product improvement.
FLAMMABLE VAPOR RESISTANT/ 
DIRECT VENT SEALED 
COMBUSTION SYSTEM
• Thru-the-wall/thru-the-roof venting of 
combustion products
• Air for combustion is drawn from outside 
the building

DURABLE, ULTRA-LOW NOx 
BURNER CONSTRUCTION

NON-CFC FOAM INSULATION
• The tank is surrounded by a thick coat of 
non-CFC polyurethane foam to trap heat 
inside the tank, saving energy.

COMBINATION THERMOSTAT/ECO
• With factory-preset pressure regulator and 
built-in millivolt-powered energy cut-off for 
overheat protection

overheat protection.

COREGARD™ ANODE ROD
• Our anode rods have a stainless steel 
core that extends the life of the anode rod 
allowing superior tank protection far longer 
than standard anode rods.

BLUE DIAMOND® GLASS COATING
• Provides superior corrosion resistance 
compared to industry-standard glass lining

ENHANCED BRASS DRAIN VALVE
• Our residential water heaters have a solid 
brass, tamper resistant, enhanced flow, 
ball type, drain valve.
• Uses a standard female hose fitting that 
allows for fast and easy draining during 
maintenance.
• Designed for easy operation, this valve 
includes an integral screwdriver slot that 
features a ¼ turn (open/close) radius, 
which not only permits full straight-
through water flow but also a quick and 
positive shut off.

CODE COMPLIANCE
• Meets UBC, CEC and HUD National Codes
• Meets the thermal efficiency and standby 
loss requirements of the U.S. Department 
of Energy and current edition of ASHRAE/ 
IESNA 90.1
• Complies with the Federal Energy 
Conservation Standards effective April 16, 
2015, in accordance with the Energy Policy 
and Conservation Act (EPCA), as amended.
